### **RE: Reorganization of Aluminum casting business**

Asahi Tec Corporation hereby announces reorganization of aluminum casting business which includes production transfer of aluminum gravity die-casting from Kikugawa-Minami plant to our wholly owned subsidiary, Asahi Tec Aluminium (Thailand), CO., Ltd. (ATA), in order to improve financial performance of aluminum casting business as well as to reinforce oversea business strategy.

Reorganization plan aims to finalize the production transfer to ATA by the end of March, 2011, and also to transfer sand mold casting products to Yokoji plant, Shizuoka Japan by the end of fiscal year 2011. It also includes outsourcing of machining and assembly business associated with the production transfer. The plan also continues existing outsourcing for aluminum casting products.

Following those production transfers, Kikugawa-Minami plant will be closed. Future use of Kikugawa-Minami plant is not yet determined. Employees currently working at Kikugawa-Minami plant will be all transferred to other production plants.
